Dear The Country Trust,

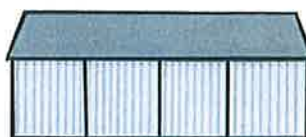

Thank you for letting us have a fabulous, educational day at your awesome farm. I really enjoyed it particularly because the people were really friendly and I have never been to a proper farm before.

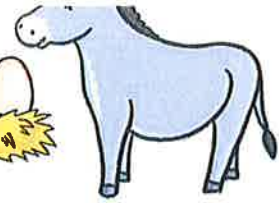

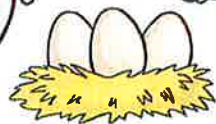

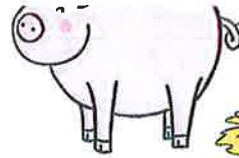

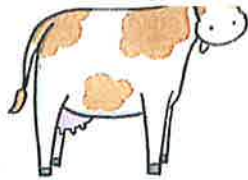

I enjoyed the Bulls and Cows the most because they were very noisy and I love Bees. I was really surprised when I realised that the bees went to McDonalds.

I also enjoyed the bees because I learnt lots about them. I also learnt that New Zealand honey can heal.

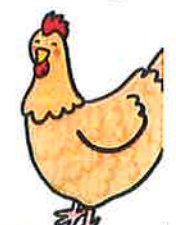

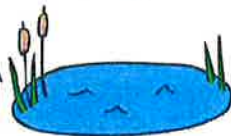

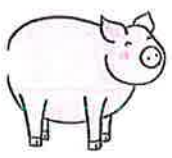

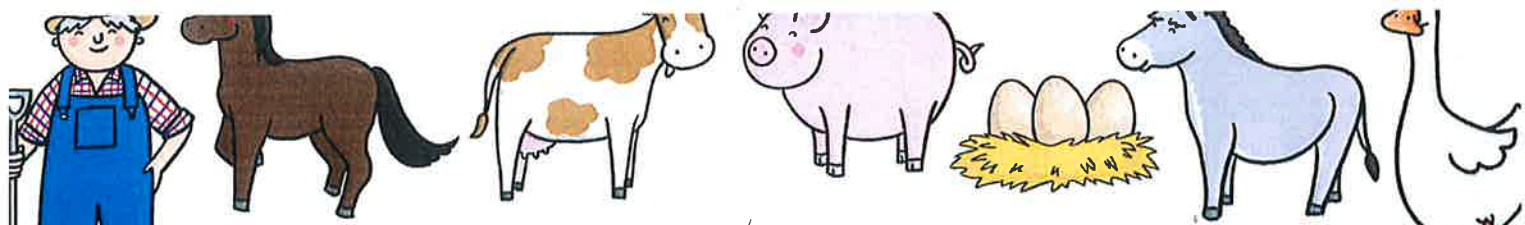

I...loved the bug hunt because I saw a millipede and found out that they were smaller than I thought. I also saw a beetle, they were bigger than I thought.

If we come back next year I would like to see the machines at work.

From,  
Fin ☺

Dear The Country Trust  
 The day was Epic !!!

You were very welcoming and friendly, I learnt a lot and had fun.

I've loved all of the activities but I can only choose three. The farm is awesome.

The best one was the sheep. I adored the baby lamb it was so cute. I learnt a lot about sheep. I liked seeing the sheep getting sheared.

I really enjoyed the Tractor ride because I'd never been on one. I loved every second of it. I liked seeing the leaves brush past.

I liked the cows lots because they kept mooing when Olly started talking. I know much more about cows now.

Next time would it be okay if we can brush, and feed the animals, but other than that it was perfect.
